Where history meets luxury: A place with a past

The Castle Mönchstein already became the subject of conversation in the 14th century, affectionately named the “Tetelheimer Turm”. Afterwards, in the 17th century, it served as an exclusive resort for the “Herr Professoris” of the St. Peter Monastery. The tower room, which still stands today, served as an astronomical research station. Thanks to Archbishop Paris Lodron, the Mönchsberg became accessible and thus flowered into being the new exclusive place-to-be for the high society. Catherine of Russia, Princess of Liechtenstein as well as Alexander of Humboldt were among the first prominent guests at Schloss Mönchstein. Schloss Mönchstein took on the role of hotel in 1948 and has since been accessible to guests from all over the world as well as regional day visitors.
